EDUCATION

University of Akron

Akron, OH

Bachelor of Science in Cybersecurity, GPA: 4.0/4.0, President's List

Aug 2024 - May 2027

Coursework: Programming for Cybersecurity, Network Forensics, Enterprise Networking, Applied Cryptography, Applied Cryptanalysis, Advanced UNIX/Linux, Technical Report Writing

TECHNICAL SKILLS

Programming and AI: Python, TypeScript, React, Next.js App Router, FastAPI, React Native, Expo, QML, C++, C#, SQL, Bash, Groq API, Claude API, Llama 3.3 70B, Ollama

Security and Data: Splunk, Wireshark, tcpdump, Snort, Nmap, Burp Suite, Nessus, MITRE ATT&CK, Sysmon, Windows Event Logs, Linux logs, Recharts, CyberChef

Systems and Tools: Linux, AWS EC2/S3/IAM, Cisco IOS, VLANs, OSPF, DHCP, Microsoft Intune, Office 365, Jira Service Management, Git/GitHub, Docker basics, VMware, VirtualBox

EXPERIENCE

Software Development Student Assistant

Akron, OH

University of Akron, College of Business Computer Labs

Aug 2025 - Present

- Develop on premise Zippy AI information kiosk for 2,000+ College of Business students using Python, QML, document retrieval, and local LLM inference on a 10 person team.
- Built and debugged search, retrieval, status tracking, and crash prevention features to improve response quality, usability, and reliability.
- Resolve 45+ support tickets across 3 computer labs within a 24 hour SLA, covering network troubleshooting, software configuration, endpoint health, and Microsoft Intune compliance.
- Standardized GitHub workflow with PR templates, branch protection, and commit conventions; write procedures, user guides, and troubleshooting references for team and end users.

Resident Assistant

Akron, OH

University of Akron, Campus Housing

Aug 2025 - Present

- Serve as primary contact for 40+ residents, document safety and conduct concerns, and coordinate with professional staff during urgent situations.
- Plan and deliver educational programming on personal safety, digital hygiene, accountability, and community standards.

IT Technician

Riyadh, Saudi Arabia

Construction and Development LTD

Jun 2022 - Aug 2023

- Managed IT support for a 15 person office, including workstation provisioning, backup automation, helpdesk support, and sensitive financial document handling.
- Executed primary server migration during office relocation with zero data loss and under 24 hours of downtime using verified backups and rollback planning.

PROJECTS

HackLab Coach | Next.js, TypeScript, React, Groq API, Llama 3.3 70B, Recharts

2026

- Built full stack AI cybersecurity training platform with a Socratic LLM coach, token by token SSE streaming, server prompt caching, adaptive challenge generation, rubric grading, MITRE ATT&CK tags, and analytics dashboards.

Daily Mood App | React Native, Expo, SQLite, Notifications, Biometrics

2025 - Present

- Built local first productivity app with 15+ SQLite tables, custom migrations, mood journal, habits, tasks, sleep, planner, goals, calorie tracking, Pomodoro, notifications, biometric app lock, and Android builds through EAS.

SOC Detection and Response Lab | Splunk, Sysmon, Windows Event Logs, Linux Logs, Python

Mar 2026 - Present

- Centralize Windows and Linux telemetry in Splunk and develop detections for failed logins, suspicious PowerShell, scheduled task persistence, and privileged account changes.

Network Forensics and SOC Labs | Wireshark, tcpdump, Snort, Splunk, PCAP Analysis

2025 - 2026

- Completed lab reports involving packet capture analysis, Snort IDS rules, Splunk SPL queries, custom CSV uploads, phishing triage, alert classification, and incident reporting.

Cisco Network Labs | Cisco Packet Tracer, VLANs, OSPF, DHCP, ACLs

2025

- Configured VLANs, inter VLAN routing, OSPF, DHCP and DHCPv6 services, STP, EtherChannel, ACLs, and wildcard masks across routers and switches.

COB Zippy AI Information Kiosk | Python, QML, Local LLM, Retrieval

2025 - Present

- Contribute to campus information assistant with retrieval, interface debugging, documentation, and local LLM deployment support on a university GPU server.

Computer Forensics II Projects | SMTP PCAP, Linux Forensics, NTFS Boot Sector

2025

- Completed projects covering SMTP packet capture analysis, Linux forensic artifacts, NTFS boot sector structure, evidence notes, and formal technical reporting.

Productivity Hub App | FastAPI, React, Claude API

2025

- Built productivity hub with FastAPI backend, React frontend, and Claude API integration to connect task workflows with AI assisted support.

Three-Card Poker Game | C++, Team Lead, GitHub Issues

2024

- Led 5 person team to build C++ poker game with hand evaluation, dealer AI, betting logic, tests, code reviews, and task tracking; delivered 3 days early.

Portfolio Website | GitHub Pages, Project Documentation

2025

- Built and maintain portfolio site to document technical projects, repositories, and cybersecurity work samples for recruiters and technical reviewers.

LEADERSHIP, CERTIFICATIONS, AND AVAILABILITY

Leadership: HTCIA Student Chapter Founding President; OCRI Capture Ohio 2026 CTF, 7th of 68 Ohio college teams; Midwest Regional CCDC, 5th regionally

Certifications and Availability: Google Cybersecurity Professional Certificate, Cisco Networking Essentials, Cisco IT Essentials, Jira Service Management Fundamentals, TryHackMe SOC Simulator and Jr Penetration Tester path; English and Arabic; based in Akron, OH and willing to relocate
